Full Comp Save | No problem with or without patch

For the time being, I made a big remake including the record collection. Perhaps all records should be recoverable. If there is a record you want to fill, search the page

⇒ * ★ indicates the record acquisition location for reference only. There are also overlapping places.

If you just want to fill the CG, after capturing 3 people, Matsushita (slimming) route and essential record collection, helping TK during the guild descent operation, NEXT BEAT clear CG is almost filled. BGM [Hot Meal] that is not filled by simply looking at all ENDS is collected by Iwasawa's remaining route collection, so please collect there.

NEXT BEAT is added to the title screen after capturing 3 players. Note that NEXT BEAT can't go to the end unless you have the records ★ No.177 to No.183 .

Record collection is longer than the main story capture, so record collection is optional.
